

# Enjoy the lifestyle rewards of boat ownership

Find your ideal boat, at the ideal price with our Boat Search

Our Boat Search allow you to enjoy the amazing benefits that come with boat ownership, whilst avoiding the pitfalls that can come with purchasing a boat. Whether you're new to boating or experienced at sea – if this is your first boat or subsequent purchase, we can save you valuable time and money.

*Thanks to Go Earth, we are now the proud owners of our ticket to the world.*

Neil Bone

## How does the Boat Search work?

Using our specialist tools and knowledge, we can refine your requirements and identify a range of suitable boats for you. We use our experience of the market to give advice on what is sensible and viable within your constraints, such as budget, size and condition.

Once we have your requirements, we create a bespoke report using our exclusive tools, that allow us to scan the whole market. You will be provided with a professional and thorough report, full of recommendations. This will include specification sheets of boats, comments, verbal feedback and /or discussions including any next steps.

## What happens once I have received my Boat Search?

As part of our commitment to getting you the best possible boat, our Enhanced Boat Search allows you to change or develop your requirements slightly and we will gladly produce a second or even third 'add-on' report, at no extra cost, to reflect your change in requirements

If you decide you'd like to explore any of the boats further, we can arrange viewings and even negotiate the price of the boat, on your behalf. We are independent of any broker, builder or manufacturer, which means that advice from us is independent, unbiased and in your best interests.

## How much does a Boat Search cost?

We aim to save you substantial amounts of money and our costs are only a very small fraction of what you'll be spending. A Standard Boat Search report starts from £195+ 0.15% of the top level budget asking price, and an Enhanced Boat Search report is £295+ 0.20% of the top level budget asking price.

- ✓ Leading industry experts working on your behalf
- ✓ Source your ideal boat using bespoke, exclusive tools
